A Mrs. Kramer and her daughter, hailing from Fond du Lac, called at the office of the Humane Society and represented that they had been robbed and asked assistance to secure transportation to their homes. The Russian Immigrant Aid Association has decided to find employment for all new arrivals in the country instead of in the city as has been the custom heretofore. They will all be recommended to farming, or work of some kind or another in the rural districts. Arrangements have been made for conveying those at present bound hitherward, with such of their race as may still be in the city unemployed, to an untilled district beyond the Dakota frontier, where such as may desire will be furnished with building materials and all facilities for breaking the land. Although the majority of these persecuted persons are skilled mechanics, they are said to show considerable adaptability for farming.

Well-Merited Success.

A gentleman once asked a distinguished dispensing druggist to explain the secret of the almost universal demand for Dr. Richmond's Samaritan Nervine. He said that it was in fact a genuine medicine—such a compound as every good physician would prescribe for the disease which it was advertised to cure. Of course it cost less than any druggist would charge for the same article supplied on a physician's prescription, and besides, there was a saving of the doctor's fee in addition. Moreover, by buying the drugs in such enormous quantities, and having a perfect apparatus for compounding the mixture, he was not only enabled to get better articles in the first place, but also to present the medicine in better form and at less price than the same preparation could be possibly obtained from any other source. Dr. Richmond has devoted all his energies to the alleviation of human suffering. With this end in view, and with his whole heart in his great labor for the benefit of the afflicted, he has achieved marked and merited success. There can be no real success without true merit. That his success is real is evidenced by the fact that his reputation as a man and physician does not deteriorate, and the fact that there is a steadily increasing demand for his Samaritan Nervine proves that it is no nostrum, but a reliable remedy. He has repeatedly informed the public that it is no patent medicine, and no patent has ever been asked for or obtained. Neither does he advertise it as a cure-all. There are hundreds of diseases that he acknowledges it will not cure. It may be urged that some of these diseases are so widely different that it seems absurd to prescribe the same remedy. They may differ in symptoms, yet in character be precisely similar; and then we must take into consideration the fact that remedies may possess various properties. Thus, some medicines are both tonic and alterative; others may be tonic and laxative, the properties differing according to the quantities administered and the time and circumstances which demand its employment.

In the manufacture of any pharmaceutical preparation the purity and strength of the materials used, and the requisite machinery to be employed, are among the chief essentials. The first is insured by purchasing the ingredients in large quantities, whereby the exercise of greater care in selecting the materials can be afforded; and the second can only be accomplished where the business is sufficiently extensive to warrant a large outlay of capital in procuring chemical apparatus. These facts apply with especial force to the manufacture of our medicines, their quality having been vastly improved since the demand has become so great as to require their manufacture in very large quantities.

These ideas are not mere speculative remarks to mislead the reader, or to imbue him with false views of the superiority of our medicines. While inspecting Dr. Richmond's establishment, you would be surprised to see the admirable facilities, both chemical and mechanical, which he employs in the prosecution of his business. Everything is arranged in the most perfectly systematic order, and while to the general observer there appears to be no room for improvement, yet new apparatus and mechanical appliances are constantly being procured for the establishment.

MOLINE, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.:

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure, has been used by both my wife and mysel. She used it "on general principles," as a system and liver regulator; I took the medicine for a long standing kidney trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies or any others, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine we ever used, and in recommending it to others as a safe remedy.

Dr. LUCAS OF CHICAGO,

The World's greatest specialist has arrived and is now permanently located at 411 Milwaukee street, for the speedy cure of private, nervous and chronic diseases.

OFFICE HOURS: 9 to 12, 2 to 4, and 7 to 8.30. Sundays, 10 A. M. to 1 P. M. only.

Dr. Lucas is a graduate of two regular (Alopathic and Eclectic) Medical Colleges, has been legally qualified to practice under the new medical law, is well known on the Pacific coast as founder of the mammoth Bellevue Medical Institute, San Francisco, and it is a well known fact that for 15 years he has confined himself to the study and treatment of Sexual and Chronic Diseases, thus giving him advantages that few possess. The Doctor addresses himself particularly to those who have already placed themselves under the care of ignorant advertising charlatans, from whom they have received no benefits, and who, in fact, have done their more harm than good. Medicine, like all other sciences, is progressive, and every year shows proof of its advance. By a combination of remedies of great curative power, Dr. Lucas has arranged his treatment that it will afford not only immediate relief but permanent cure.

YOUNG MEN Who are suffering from the damning effects of youthful indiscretions (Seminal Weakness), among others, showing some of the following symptoms: Nervous and Physical Debility, Impotence (sexual incapacity), Lost Manhood, Abuses of the System, Exhausted Vitality, Confusion of Ideas, Dull and Loss of Brilliancy to the Eye, Aversion to Society, Despondency, Pimples on the Face, Loss of Energy, and Frequency of Urinating. You may be in the first stage, but remember you are fast approaching the last. Do not let false pride and sham modesty deter you from attending to your agonizing ailments. Many a bright and naturally gifted young man, endowed with genius, has permitted his case to run on and on, until remorse racked his intellect, and finally death claimed its victim. Remember, that "PROCRASTINATION IS THE THIEF OF TIME," so lay aside your so-called pride and consult one who thoroughly understands your ailment, and who alone will know your case; in reciprocation, find permanent relief for an ailment that has made day a drudgery and night hideous. Thousands upon thousands of men, in good standing in the social world, of prominence in the world of commerce, of culture and refinement, are to-day suffering from the fruits of their doings, the seeds of which were sown during moments of thoughtlessness. Young man, turn and gaze upon thy companion, or seek the mirror for proofs to substantiate this fact. Oh! could he control the arm of Fate, or lend he the diction of a Webster, he could not appeal to you more sincerely. Man, think of the gentle tones of the mother who bore you; recall the pleading accents of an anxious sister; let your mind wander back to the much cherished counsels of a loving father, and remember what you are to-day. Though you may for the present fill your station in society, the time is as inevitable as fate, when your brilliancy will like a flash depart, leaving you a stranded wreck on the Shoals of Pride—desolution, forgotten and lost; so embrace the opportunity and procrastinate no longer. If you claim to be a man, act your part manly. Do not console yourself with the thought that Nature will help itself, for in doing so you not only fan the flame, but insult Nature and yourself. Remember "large oaks from little acorns grow." "Little do germinate fatal diseases."

MIDDLE AGED MEN Married or single, who are prematurely old, as a result of excesses or youthful follies, and who are troubled by too frequent evacuations of the bladder often accompanied by a slight smarting or burning sensation and finding a deposit of ropy sediment in the urine, and some times small particles of albumen will appear, or the color will first be of a thin or milkish hue, and again changing to a dark and turbid appearance, causing nervous debility and loss of vitality. Remember, this is the second stage of Seminal Weakness. In all such cases a perfect cure is guaranteed and a radical restoration of the Genito Urinary Organs. I WILL FORFEIT $500 FOR EVERY CASE OF PRIVATE DISEASE THAT I FAIL TO CURE. All interviews and letters are sacredly confidential. Medicines packed so as not to excite curiosity, and sent by express, if full description of case is given, but one personal interview in all cases preferred. Address, DR. LUCAS, 411 Milwaukee street, Milwaukee, Wis.
