SHE IS FIFTY YEARS OLD

Beaver Dam Celebrating Her Semi-Centennial.

DEDICATION TO-DAY OF A FREE PUBLIC LIBRARY.

J. J. Williams' Generous Gift to the City. The First of the Four Days Celebration in Which Pioneers, Old Soldiers and Various Civic Organizations Are to Participate—Realistic Reproduction of War Scenes in Tableaux—The Pioneer Reunion Yesterday.

BEAVER DAM, Wis., July 14.—The streets are gay with flags and bunting and many of the private residences are handsomely decorated in honor of the Dodge County Veterans who gathered here to-day, and the gala week which commemorates the fiftieth anniversary of the settlement of Beaver Dam. Four days of this week are given up to the festivities and glad and sad reunions of families, societies, the Grand Army people and the Dodge county pioneers. To-

day the big brass cannon thundered at sunrise and all the boys in town followed with firecrackers and torpedoes. The morning trains brought in a number of old soldiers, who registered at the City hall, and the boys in blue, somewhat worn and wearied in the battle of life, are here in force. At 1 P. M. they marched with flags and music through the crowded streets to Vita park, where an interesting programme was carried out with music by the band, and eloquent addresses by Col. Upham, of Marshford, the Hon. E. D. Coe, of Whitewater, and others.

One of the pleasant features of the celebration is the dedication of the Williams Free library on Wednesday afternoon. For seven years, through the public spirit of a few citizens, a free public library has been open to the people in insufficient quarters three days in the week. A year ago the Hon. J. J. Williams, a resident of the city for a quarter of a century, was moved to offer of his accumulated wealth the sum of $25,000 for a suitable building for the library if the city would provide a favorable site. The offer was promptly accepted and the corner-stone laid on Aug. 26, 1890, with impressive ceremonies and eloquent addresses by the Hon. A. Scott Sloan, the Hon. G. C. Mc-

J. J. WILLIAMS.

Fetridge and others. The addition of $10,000 from the estate of the late Wm. Downer is the nucleus of a fund for enlargement and important additions to the books and valuable maps and charts which are now in the shelves and alcoves of the spacious building, and are accessible and to be used by citizens. The grounds about the massive building are handsomely graded, and a large fountain of sparkling spring water is plashing in front.

The public exercises will be interesting and begin at 1:30 P. M. at the Public Library building which is completely finished and furnished within and without and is a gem of architectural elegance and a credit to the rising city and an abiding monument of the wisdom and generosity of its large hearted founder. The center of attraction and interest is the good man himself, who has lived forty years in this county and been a resident of this city for more than a quarter of a century. All delight to greet him and express the gratitude of their hearts to one who has done such great things for Beaver Dam. The programme begins with an overture by Harder's Military band followed by prayer and vocal music. Then the report of the Building committee and address by the Hon. E. C. McFetridge; then vocal music and the presentation address by Judge A. Scott Sloan and the acceptance of the same by Mayor W. C. Griffis, closing with prayer and music by the band.

The Hon. John M. Thurston hesitated a little on account of his mother's illness, but his good mother is better and he has wired the committee that he will come to-night with his special car and several former residents of Beaver Dam to remain through the entire week and greet the friends of his early years. Several old residents are here this morning and nearly every home in the city and country around has friends and visitors who have made their arrangements to attend the interesting exercises of the semi-centennial. There will be a grand display of engines and hose carts, with several fire companies from Columbus and elsewhere, on Thursday morning, with a fine parade and drill by the Beaver Dam guards, and the inspiring music of Harder's military band. Old settlers of Beaver Dam and Dodge county have a dinner together and a social reunion. They are requested to call on Thomas Hughes, secretary, at city hall, from 9 to 10 A. M. to register and secure badges. According to the rules of the Dodge County Pioneer Settlers' club, which was organized ten years ago, only such are to be considered members of the club as became residents of Dodge county by immigration or birth previous to 1850 and who are now residents of the county. It is expected that there will be about 100 members of the club who will be present at the dinner and reunion.

The feature this evening was the reproduction of stirring war scenes before a large audience at Music hall, under the auspices of George Hale post, G. A. R., the Beaver Dam guards and Women's Relief Corps. Many of the tableaux were very realistic. There were also war songs and addresses.

The Hon. John M. Thurston, of Omaha, who arrived this evening, will speak on Thursday afternoon. The city is rapidly filling up with visitors.

BURIED IN HIS WELL.

Gotfried Walther, a Farmer Near Phillips, Loses His Life.

PHILLIPS, July 14.—While digging a well on his farm about five miles south of this city, Gotfried Walther was buried and is now beyond doubt dead. The accident occurred about 5 o'clock last evening and at this writing all efforts to extricate the body have been futile. The well had been dug to the depth of twenty-five feet and, after working a few minutes, Walther noticed the sand near the bottom giving way and started to ascend. About midway between top and bottom, and before Walther could escape, a huge stone weighing about two tons became undermined and rolled upon him, pinning him to the bottom of the well. Walther came here with his family about two months ago from Brooklyn, N. Y., and by trade is a bricklayer.

CHAMBERLIN A GREAT MAN.

What the Smithsonian Institute Thinks of Him—High Compliment to the University.

MADISON, July 14.—The standing of President Chamberlin of the State university among scientific men and scholars of the present day is well shown by a report that has just been issued by the Smithsonian institute, the foremost scientific institution of this country. In this report President Chamberlin is repeatedly referred to as one of the highest living authorities in geology in general and as the highest in his specialty, glacial geology. Prof. Salisbury, who comes to the university this year from Beloit college, is also referred to in high terms. One extract is as follows:

"One of the most interesting and important lines of investigations in glacial geology undertaken within recent years is that so successfully pursued by Chamberlin upon the terminal moraines built by the pleistocene ice sheet during certain stages of its existence. The same phenomena have also been studied in this country by Upham, Cook, Wright, Lewis, Salisbury and others, and the number, extent and significance in glacial geology of the American moraines have been brought out by these students. The various American observations upon glacial striæ have just been assembled, graphically depicted upon a remarkably instructive map, and discussed at length by the foremost living authority upon glacial matters, President Chamberlin. These American observations agree with those made on the other side of the northern lakes and the forty-ninth parallel."

Other quotations might be made showing that President Chamberlin is considered by learned men as the greatest living authority on his specialty, glaciology, and comes near that rank as a geologist.

F. M. B. A. COUNTY ASSEMBLY.

Adjournment Because of Small Attendance. State Organizer Chosen.

MADISON, July 14.—Delegates from the four lodges of the Farmers' Mutual Benefit association of Wisconsin arrived here to-day to attend the county assembly. Through some misunderstanding several delegates did not come and consequently the meeting was adjourned. C. C. Pease, of Belleville, however, was made state organizer. He said that the F. M. B. A. was not in favor of joining forces with the various labor organizations. For this reason they were opposed to the Farmers' Alliance. "Our work," he said, "is practically the same as that of the Alliance. There are four lodges now in Wisconsin with a membership of over 300. In Illinois and Indiana the F. M. B. A. is much stronger than the Alliance."

Mr. Pease thought the Alliance would go to pieces after the election of 1892. One reason he gave for his opposition to the Alliance was that if it united with the labor organization, the farmers' financial interests would be affected. The F. M. B. A. is in favor of upholding the government but at the same time wants to improve its own conditions. The fact that farmers receive low prices for their products is not due to any political party but rather to their own inactivity.

DOCTORS IN SESSION.

Inter-County Association at Eau Claire and Northern Wisconsin at Marshfield.

EAU CLAIRE, July 14.—The Inter-County Medical Society met here to-day with President Trowbridge, of Hayward, in the chair. The election of officers resulted: President, Dr. Ryddell, of Chippewa Falls; vice-president, Dr. Lyman, of Eau Claire, and Dr. Hays, of Chippewa Falls; secretary and treasurer, Dr. Epley, of New Richmond. Censors were then appointed by counties as follows: Dr. Gould, of Pierce county; Dr. Epley, of St. Croix county; Dr. Thraue, of Eau Claire; Dr. Hayes, of Chippewa; Dr. Ellis, of Barron; Dr. Hopkins, of Washburn; Dr. Sheean, of Douglas; Dr. Meturus of Ashland; Dr. Trowbridge, of Sawyer; Dr. Honnan, of Bayfield; Dr. Wiper, of Pepin, and Dr. Decker, of Dunn. Papers were read and to-night a supper was given to visiting members.

MARSHFIELD, July 14.—About thirty prominent physicians, members of the Northern Wisconsin Medical association, met here today. The organization has a membership of eighty.

STATE BOARD AT SPARTA.

No Changes Likely to Be Made in The Management.

SPARTA, July 14.—President Clarence Snyder, Chas. Luling, J. E. Jones, Dr. J. L. Cleary, Chas. D. Parker, and W. F. Graebner, comprising the new State Board of Control, have been at the State Public School throughout the day getting an insight into the work of the institution. Mr. Snyder was seen by The Sentinel correspondent, and in response to an inquiry, stated that no changes in the management or in any department of the school are likely to be made at present. The matter of a successor to Supt. Roberts has not even been considered. Members Luling and Jones left this afternoon for Waupun, in order to be present at the opening of the new Warden's regime, which takes place to-morrow. The other members of the board went to Mendota.

Boy Crushed by the Cars.

JANESVILLE, July 14.—Louis Cooley, 13 years old, was terribly mangled this evening by the cars. He was playing near the track and undertook to jump on a moving train, falling on the track. Several cars passed over him, crushing both legs and bruising his body. He cannot live.

Shot Himself While Hunting.

BRANDON, July 14.—A dispatch from Blain, Washington, reports the death of Richard Smith, who accidentally shot himself while with a party of hunters chasing a wild goat on Mount Baker. Mr. Smith was a young man, the son of Allen Smith, a farmer near here.

Chicago Boy Choir at Lake Beulah.

LAKE BEULAH, Mukwonago, July 14.—The boy choir, forty strong, of the St. James Episcopal church of Chicago, is in camp on Lake View park, and will remain two weeks. Glen B. Crossman and family and F. A. Anson and wife, of Milwaukee, are stopping at the hotel.

Accident at Waupaca.

WAUPACA, July 14.—The 6-year-old daughter of John P. Hooker, a barber of this city, fell from a second story window at the Scoville house last night, putting both wrists out of joint and terribly bruising and lacerating her face.

Shipped 700 Sheep to South Dakota.

BRANDON, July 14.—Saml. Weinstock, of Milwaukee, and Wm. Kruger, of Clear Lake, S. D., bought and shipped 700 sheep, four car loads, from here Monday, to their farms near Clear Lake, S. D.

Tobacco Damaged by Hail.

JANESVILLE, July 14.—Hail during the storm last night damaged early tobacco plants to a considerable extent in the fields north of the city.

State News in Brief.

Dr. Coburn picked a strawberry at Washburn seven inches in diameter.

Loose timothy hay brings $12 to $14 a ton in the Sturgeon Bay market.

Mrs. Sophia Seeley Hall, for many years a school-teacher at Oshkosh, died at Minneapolis on Sunday.

Ashland and Ironwood will each have a newspaper printed in the Norwegian language in the future.

Archie Greenough, a 13-year-old Appleton boy, was sent to the county jail for stealing whisky from saloons.

The log drives in the northern part of the state are mostly hung up on account of the small amount of water.

Beloit will build a $10,000 addition to one of the public schools, the demand for more room making it necessary.

Over 2,500 cases of strawberries were shipped from Sparta this season and the raspberry crop promises well.

The safe at the Northwestern depot at Waukesha was broken into, but nothing was taken, the safe being empty.

Harold Irving, the 16-year-old son of Howard M. Kutchin, formerly of Fond du Lac, died at San Diego on the 2d inst.

French, who was sent to Waupun, from Ashland, for murdering Gavin M. Steele, is at present employed in polishing shoes.

The contracts for the new Normal school at Whitewater and an addition to the one at Platteville will be let at Madison, Aug. 13.

Phelps Perrin, of Hurley bank fame, is not in love with the Waupun prison fare. He says only two meals a week are served that are in anyway palatable, barring the bread, which he says is always good.

Frank Eicheis, a farm hand near Eau Claire, was bitten by a snake that he accidentally picked up while "shocking" on the farm of Horace Jones. His hand and arm were greatly swollen when he reached Eau Claire, though he had promptly tried the whisky antidote.

The La Crosse Republican says that unless there comes a rise in Black river by Wednesday, the Onalaska boom will be emptied of logs. Twenty-four hours' steady rain would be sufficient to create a rise and on that occasion 40,000,000 feet of logs could be floated down to the boom.

Government World's Fair Buildings.

WASHINGTON, D. C., July 14.—The Board of Management of government buildings, at its meeting to-day, directed its building committee to proceed to Chicago to consult with the exposition authorities with respect to the government buildings. The committee, accompanied by Supervising Architect Edbrooke, who will represent the secretary of the treasury, will leave here next week.

NICKEL SAVINGS DEPARTMENT.

Merchants Exchange' Bank—Nickel Savings stamps are for sale at nearly all druggists.

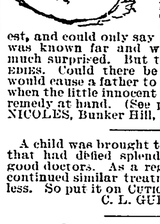
White Earth Indians Quiet.

ST. PAUL, Minn., July 14.—According to Indian Agent Schuler, of the White Earth reservation, the wild reports of trouble up there are absurd. The government removed a dance house in order to remove a possible source of trouble, and the Indians say they are ready to do anything that will please the great father at Washington.

WORST FORM ECZEMA

Baffled Best Medical Skill for Eight Months. Cured in Two Months by Cuticura Remedies.

This is to certify that a child of mine had Eczema in its worst form, and which baffled the best medical skill that could be employed here. The little sufferer was wrapped in agony for at least eight months. Six months of that time its suffering was simply untold, then I began the use of the CUTICURA REMEDIES, in two months the awful disease had ceased its vengeance, and my darling boy had rest, and to all appearance the disease had yielded, but I continued the medicine for several months after no trace could be seen of it on any part of his body. The doctors here watched the disease with much interest, and could only say "Well done!" The case was known far and wide, and everybody was much surprised. But thanks to CUTICURA REMEDIES. Could there be anything on earth that would cause a father to rejoice it surely would be when the little innocent one could have such a remedy at hand. (See portrait herewith.) J. A. NICOLES, Bunker Hill, Ind.



A child was brought to me with chronic eczema that had defied splendid treatment from many good doctors. As a regular M. D., should have continued similar treatment, but thought it useless. So put it on CUTICURA. The child is well. C. L. GURNEY, M. D., Doon, Ia.

CHOLERA INFANTUM.

Why Do the Largest Number of Deaths Come in July?

Common observation is right when it says that the mortality from diarrhœal diseases in children is greatest during the summer months.

Taking the average of a large number of years, the mortality increases rapidly from May to July, and then steadily decreases. In a total of 31,048 cases, the mortality during May was 660; during June, 4,103, while during July it reached the enormous number of 12,468.

But just what are the causes of the frightful death rate of this month? Extreme heat and improper food. We cannot control the temperature, but every

EDNA L. WOODMANSEE.

mother has it in her power to see that her child has healthful food.

Mrs. I. J. Woodmansee, of Spencerport, N. Y., has a little girl who was taken quite sick in May of last year, with bowel trouble. Nothing helped the baby until she used Lactated Food, when improvement was rapid. All through the dread summer months, when cholera infantum's victims were numbered by thousands, little Edna lived on lactated food, and kept well and strong. One circumstance stands out prominently in the investigations of cholera infantum—it is that infants fed on lactated food are almost exempt.

The grief and sorrow of a parent's heart can be saved by the use of this pure food. It is not medicine—it is an actual substitute for mother's milk, and will sustain and nourish life in the frail little body when all else signally fails.
