Dueber-Hampden 17-Jewel Adjusted Watches.

It is marvelous how these famous Watches are taking the place of all others where accurate time is required. Railroad men will have nothing else.

The average daily transactions were: Exchanges, $113,978,082.31; balances, $5,616,580.05; total, $119,594,662.36. The total transactions from the organization of the clearing house (forty years) were: Exchanges, $1,021,018,593,454.38; balances, $45,981,837,600.20; total, $1,067,000,431,054.58.

Other figures were: Largest exchanges on any one day (Jan. 17), $216,885,053.23; largest balances on any one day (Feb. 2), $11,069,991.17; largest transactions on any one day (Jan. 17), $225,406,897.53; smallest exchanges on any one day (Aug. 28), $45,811,648.35; smallest balances on any one day (Aug. 28), $2,342,928.98; smallest transactions on any one day (Aug. 28), $48,154,577.33.

The debit balances were paid in as follows: United States gold coin, $71,212,000; United States bearer gold certificates, $65,061,000; United States order gold certificates, $32,355,000; United States treasury notes, $584,613,000; United States legal tender certificates, $188,120,000; United States legal tenders and change, $525,063,175 52; clearing house loan certificates, $229,783,000; total, $1,696,207,175.52.

The transactions of the assistant United States treasurer at New York for the year were: Debit exchanges, $311,667,862.84; credit exchanges, $114,840,233.88; debit balances, $199,486,783.98; credit balances, $2,659,655.02; excess of debit balances, $196,827,128.96.

The association is now composed of 46 national banks, 18 state banks and the assistant treasurer at New York. There are 34 banks, trust companies, etc., in the city and its vicinity not members of the association which make their exchanges through banks that are members.

Milwaukee Money Matters—Notes.

The New York banks were reported to have retired and cancelled $700,000 worth of certificates, which leaves less than $20,000,000 outstanding. As they draw 6 per cent. interest for the holders it is not likely that any pressure is brought to bear on the banks which have issued them. The local money market is unchanged, and prime mercantile paper is discounted at 7 per cent. for regular customers. The currency movement to and from the interior is light. Bank clearings here yesterday were $852,115.48, and balances $104,761.19. Collections are improving and deposits increasing slowly but steadily.

New York exchange is quoted at 70@75c premium between city banks. Counter rates are quoted at par buying and 1.00 premium selling for bankers' bills. At Chicago the price was 75c premium among banks.

Foreign exchange and coins are higher, and quoted as follows:

Sterling, sight	4.84¼
Sixty days	4.82¼
Marks, sight	95
Marks, sixty days	94
Francs, sixty days	5.25½
Francs, sight	5.22
Guilders, demand	40
Guilders, sixty days	39¾

A London banking firm said that the recent decline in sterling rates was more a matter of sentiment than anything else, and that sellers were simply forced to make concessions in order to sell their bills. One exchange dealer said that although money is ruling so low, many sterling loans have been renewed, and that to his knowledge these renewals have amounted to several million dollars.

Money and Stocks.

NEW YORK, Oct. 6.—Money on call easy at 1½@2½ per cent, last loan 2, closed at 2. Prime mercantile paper 7@9 per cent. Sterling exchange steady, with actual business in bankers' bills at 4.85@4.85¼ for demand and at 4.83¼@4.83½ for sixty day bills. Posted rates 4.84@4.86. Commercial bills 4.81¾@4.82. Silver certificates 73½@74¼. Clearings $79,133,825; balances $5,546,959.

Were it not for the squeeze in Delaware, Lackawanna & Western and a break in Cordage the speculation on the Stock exchange to-day would have been without marked feature. The general list was sluggish to a degree, the sales in no single instance reaching 20,000 shares and in only four cases exceeding 10,000. The little deal in Lackawanna was in the nature of a surprise to the street. A decline of one-half per cent was recorded in the morning, which was quickly recovered, and then the stock jumped 2 per cent on one sale of 100 shares to 140 and then shot upward with pyrotechnic rapidity to 157, a 10 per cent advance on yesterday's closing figures. Then came a gradual decline to 151½, with a recovery to 154¾ and a reaction at the close to 151⅝, an improvement on the day of 6½ per cent. Lackawanna is not a very safe stock for operators on the bear side. It is held closely by insiders, who keep account of the short interest so as to be in a position to put the shackles upon any unfortunate broker who may be put in a corner. As the story goes the shorts had borrowed some 20,000 shares and the upward movement was inaugurated to compel them to cover. It is said, however, that so far as bringing the bears to cover is concerned the move was not an unqualified success, as the transactions in the stock did not reach 14,000 shares. Cordage was sold on the announcement that the receiver's report, already long delayed, would not be given out until after it had been passed upon by Vice-Chancellor McGill, and also on a rumor that the organization committee and the receiver had come to a disagreement. A decline of 2¾ per cent from last night was affected before a halt was called. When upon a denial of the reported disagreement the stock recovered 2¼ with a final re-action of ⅝ per cent. The general market was firm and a fraction higher at the opening but buyers were waiting to sustain the list and a period of depression set in, which carried prices down to ¼@⅞ per cent. The stock did not begin to rally until about 1 o'clock, when the rise in Lackawanna carried up with it the other coal shares and most of the active list, Missouri Pacific leading with an advance of 1¼ per cent. from the opening, ¾ of which was subsequently lost. Firmness was the prevailing tone during the afternoon and at the close.

The Post says: "It will be strange if the next year or two does not witness a general weeding out of over-capitalized and loosely-organized industrial combinations. The investors in these enterprises, when the craze was still at its height, two years ago, were warned by all competent critics that the high dividends and watered industrial stock could be paid only by over production, and this would presently bring about its inevitable result. London learned it first. The Baring panic of 1890 taught the British public how much of value and how much of wind there was in the host of brewery companies and incorporated trading concerns for whose shares, doubled or quadrupled over normal capitalization, the English investor scrambled so wildly in 1888 and 1889. These facts from foreign experience were before the eyes of our own infatuated bidders for industrial shares last year, and this, but were quite unheeded. The lesson does not even yet seem to have been successfully learned."

The principal changes on the day's transactions not already noted are an advance of 3¼ per cent in New Jersey Central, 1¼ in Delaware & Hudson, 1¼ in Tobacco common, and 1 in Baltimore & Ohio, and a decline of 7⅛ in New York & Northern preferred, 1¼ in Tobacco preferred and 1⅛ in Manhattan.

The total sales of stocks to-day were 102,500 shares, including: American Sugar 5,800; Chicago Gas 6,100; do Div Scrip 9,100; Delaware, Lackawanna & Western 18,000; Whisky 11,700; Reading 19,400; St Paul 4,500; Silver certificates 35,000 ounces; Union Pacific 3,200.

Chicago Money Market.

CHICAGO, Ill., Oct. 6.—The statements published by the national banks show a condition of affairs not entirely healthy. The average percentage of cash resources to liabilities is fully 50 per cent, and in many cases materially heavier. If there was more confidence there would not be so much money lying idle in the banks. There was a good inquiry for loans, but bankers are pursuing a very conservative course and will probably do so until repeal matters are settled. Some operators claim that they have been offered loans as low as 5 per cent. Call loans can be had very readily at 6, and time loans from 6 to 7. Savings banks in different parts of the country are very strong, and are especially anxious for choice state and municipal bonds. Sterling exchange is weaker. Clearings $14,599,000. New York exchange 75c premium. Sterling exchange quiet. Money steady 6@7 per cent.

COMMERCIAL.

Grain Markets—Wheat and Flour.

The breadstuffs markets here yesterday were steadier, and wheat rallied ¼@⅝c under the favorable tenor of European advices. The movement at the primaries are smaller, while exports are large. The weather has turned wet.

The following table shows the opening, highest, lowest and closing prices of spring wheat in this market yesterday:

	Opening.	Highest.	Lowest.	Closing.
Cash or Sept	61	61¾	60⅞	61⅝
Seller Dec	63¾	64⅛	63⅝	64⅛

Car receipts of grain here during the twenty-four hours ending yesterday morning—93 cars wheat, 9 corn, 23 oats, 120 barley and 11 rye; total 256 cars. On track at Milwaukee and Duluth—839 cars wheat against 983 the corresponding day last week. Estimated at Chicago for to-day—175 cars wheat, 485 corn and 275 oats.

Public cables were more favorable, and London opened 1½d per quarter higher, while Liverpool was unchanged, but closed ¼d per cental higher for futures, while country markets were slightly lower. Antwerp was steady, but Paris declined.

The black weevil is being distributed in Minneapolis through a lot of rice sold by a grocery.

The government report next Monday will announce the yield per acre of wheat and oats, and also report on the condition of corn.

The stocks of flour at Duluth Sept. 30 were reported at 279,819 bbls, of which 35,802 were held by mills and 244,017 held by railroads.

About 570,000 bush wheat and flour cleared from four Atlantic ports. In addition New Orleans reports 69,000 bush wheat exported.

A St. Louis commission merchant said that they were shipping wheat from there to country mills from whose territory they usually got heavy receipts at this season of the year.

The total area now devoted to wheat in Argentina is 12,500,000 acres, while there are 240,000,000 acres suited to cultivation. From Jan 1 to Sept 1, 1893, Argentine exported 28,844,000 bush.

It is probable that about one-third of the surplus from this year's wheat crop has already been taken by Eastern millers and exporters and that there is not much over 14,000,000 bush left to supply their future wants after the needs of the Northwest have been supplied, says The Minneapolis Record.

Reports from all parts of the country indicate an average crop of cloverseed. In some sections the yield has been much better than it was a year ago, while in other places a light crop has been harvested. The high prices which prevailed last season are making those who have to invest this year a little anxious about the price which will be placed upon the new crop.

Milwaukee Breadstuffs Markets.

Grain Freights—Are drooping, and the schooners Maryland and J B Lynn take 90,000 bush wheat by lake to Buffalo at 2c. Rye and barley are quotable at about the same figure, and oats at 1¾c.

Flour—Is steady and in moderate demand at inside quotations, choice spring wheat patents in wood ranging at 3.70@3.90.

Millstuffs—Are nominally steady at previous prices—12.00 for sacked bran and 13.00 for middlings.

Wheat—In store—Opened stronger and ⅝c higher under more favorable cables from Europe and an increased export movement. London was 1½d per quarter higher, but Liverpool was unchanged and futures closed ¼d per cental higher, while country markets tended downward. Antwerp was steady, but Paris declined. The movement at the primaries is falling off. The weather continues mild and some rain has fallen. December opened at 62¾c, fell to 62⅝c, rose to 64½c and closed at 64½c; cash ranged at ⅝c below and May 7c above.

Sample Wheat is steady and moderately active, fair receipts. Sales: No 1 Northern on track or switched, 11 cars (dockage) 64c, 3 do choice 64½c. White Fife, 1 car 61½c on track. No 2 spring on track or switched, 15 cars 62c, 2 cars 61½c, 2 cars 61c, 3 cars Western 63c, 1 do 62½c. In bin, 9 cars 61c, 2 cars 60¾c.
