Live Stock.

Kansas City, Mo., Dec. 28.—Cattle—Receipts 4,500 head; shipments 200 head; market slow but steady; Texas steers 2.35@3.45; Texas cows 1.50@2.80; beef steers 3.60@5.20; native cows 1.25@3.25; stockers and feeders 2.35@3.65; bulls 1.25@3.85. Hogs—Receipts 5,200; market weak to 5c lower; bulk of sales 4.00@4.30; heavies 4.05@4.40; packers 4.00@4.40; mixed 3.95@4.25; lights 3.50@3.75; yorkers 3.70@3.75; pigs 3.00@3.70. Sheep—Receipts 2,100 head; shipments 400 head; market steady.

St. Louis, Mo., Dec. 28.—Cattle—Receipts 700 head; shipments none; market nominally steady, no quotations established, arrivals being kept back by delayed trains. Hogs—Receipts 5,000 head; shipments 1,300 head; market dull, easy; best heavy 4.50; good mixed and light 4.25@4.40; pigs, common and rough 3.00@4.00. Sheep—Receipts 1,400 head; shipments none; market active, strong; native mixed 3.00@3.25; sheep and lambs 3.35; lambs 4.25.

Chicago, Ill., Dec. 28.—There was no quotable change in prices for useful grades of beef cattle. With fresh receipts about 2,000 head in excess of the arrivals of the same day last week, trade ruled slow, but prices were generally well sustained. Most of the fair light and medium steers went at 3.50@4.60, a few plain light steers around 4.75. Some thin young steers were taken out for feeding purposes around 2.60 and the thrifty well-bred feeders went around 3.25. Hog receipts fell about 8,000 head short of the arrivals of one week ago. The demand was not strong, however, and the general trade was quiet with little change from Thursday's scale of prices. Prime heavy hogs sold rarely up to 4.65, but good heavy packing and shipping lots sold chiefly at 4.45@4.55, plain mixed around 3.40 and light weights largely at 3.30@4.20. The late trade was firm. Early prices for sheep were firm, but the market soon lost tone, and closing prices were 10 cents off from the values of the day before. The run was ample and there were enough late arrivals yesterday still on hand to swell the total supply to 15,000 head. Choice fat weathers sold at 3.55@3.65, most of the good mixed mutton stock at 3.25@3.25 and thin to fair mixed lots at 2.00@2.60. Good lambs sold at firm prices. Fancy lambs went at 4.30, most of the good choice lots at 3.60@4.10, and fair lots around 3.25. Receipts—Cattle 7,500; calves 200; hogs 20,000; sheep 11,000.

Dry Goods.

New York, Dec. 28.—There has been very little new business done in any direction. Few important buyers are present and the order demand was of contracted volume because of delayed mails. Very good sales were reached through deliveries on spring orders for clothing, woolens, dress goods, underwear, silks and all classes of staples, colored and fancy, cottons. Printing cloths dull at 2 11-16c plus 1 per cent.

STOCKS, BONDS, MONEY

THE MARKET LESS ACTIVE THAN ON THURSDAY.

TRADING WAS UNIMPORTANT, AGGREGATING 86,000 SHARES.

Business Was Most Active in the Coal Shares and Burlington & Ohio—Sugar Closes Higher—The General Market Moved Within a Very Narrow Range on a Very Small Volume of Business.

Business at the local banks is light, as is indicated by the clearings, which yesterday were $615,365.90, and balances $106,891.07. The holiday trade is over, and business generally light, merchants being engaged chiefly in taking stock. The currency movement to and from the interior is light, and in favor of Milwaukee. The intensely cold weather checks out door business, and the demand for loans is light at 6@7 per cent. per annum.

A New York dispatch says the coal sales agents probably will vote to restrict the production 2,500,000 to 3,000,000 tons, but may not take action on prices, pending further developments.

Bar silver in London is quoted at 59⅝c. London declined 3-16d, to 27¼d.

The factor of discouragement is the continuous decline in December gross receipts, accompanied, as November's showing proves, by an actually higher operating percentage, says The New York Post. This, and the utterly insignificant figure cut in the record of grain-cars brought weekly into Chicago, seem to reflect a condition in the Dakota farm lands different and more serious than has at any time hitherto been anticipated.

Kennett, Hopkins & Co., in their special report to C. C. Rogers & Co., says of the New York stock market yesterday: The feature of interest was in the group of coal stocks. The selling, which has been principally in Jersey Central, continued during the first part of the day, but later a sharp rally occurred in Lackawanna, both of which are closely held. The remainder of the list was dull. A shipment of $750,000 gold was announced for to-morrow.

New York exchange is drooping, and quoted at 70c premium per $1,000 between banks. Counter rates are quoted at 1-10 discount and 1-10 premium selling for bankers' bills:

Foreign exchange and coins are firmer, and buying rates are quoted as follows:

	Sight.	Sixty days.
Sterling	4.88¼	4.87
Marks	95½	95
Francs	5.17	5.19
Guilders	40¼	40⅛

The chief feature of the money market at present is found in the preparations for the usual January disbursements, says The New York Mail. The railways of the country will, of course, lead all other corporations in the amount of money to be paid on account of interest and dividends, but their disbursements will fall below those of years past, owing to the important systems now in default. Industrial companies, banks of discount and savings banks and miscellaneous concerns will add their quota to the grand aggregate, as will also the national government states, counties and cities. The popular estimates of the total amount to be disbursed at New York range from $75,000,000 to $90,000,000, but the outside figures are probably too large in view of railroad defaults previously mentioned. It is possible that the preparations now in progress may cause a temporary hardening in the rates of interest before the close of the year, but no permanent advance of importance is looked for unless gold exports should be maintained on a liberal scale and money should continue to advance in Europe.

New York Money and Stocks.

New York, Dec. 28.—The stock market to-day was less active than on yesterday, the sales aggregating less than 86,000 shares. Outside of the coal shares and Baltimore & Ohio, the trading was unimportant. Immediately after the opening, an attack was made on the coalers. New York Central was the main point of the attack, and being sold freely with the result of a break of 2⅝ per cent, in the stock, 2⅛ in Delaware & Hudson, 4 in Delaware, Lackawanna, and ⅝ in Reading. There was no fresh rumors unfavorable to any one of the coal carrying roads or to the coal trade in general. At the latter figures there was some buying in the stocks causing an advance. In the later dealings, New Jersey Central lost part of the recovery, closing at a loss of 1 per cent. on the day. Delaware & Hudson was offered down to 121 but no sales were made except regular. Baltimore & Ohio was again heavy, opening 1½ per cent. lower, at 61 on making a further decline of 2⅝ on sales of only 600 shares. Disquieting rumors were in circulation touching the company's financial standing, which were officially denied. The depression in the stock is mainly credited to the position taken by the company in the matter of the reorganization of the valley railroad of Ohio, the plan of which, it is claimed, takes from the Baltimore & Ohio a portion of its assets. The stock closed only ⅜ per cent. above the lowest point touched. The general market moved within a narrow range on a very small volume of business. During the morning the speculation was steady to firm, became heavy after midday and strengthening in the final trading, the market closed in good tone. A report was current of the entering into an agreement by the General Electric with the Westinghouse company to maintain prices so as to admit of a fair profit. In the late dealings, General Electric lost ½ per cent. of the early improvement. Sugar moved within a range of 1⅛ per cent., closing at an advance of ⅛ on the day. The grangers were neglected, moving within a range of ⅞@1½ per cent.

The Evening Post's London cablegram says: "The settlement was satisfactorily concluded. The general tone was very good to-day. Prices finished at the best with upward tendency. Americans were mostly steady to firm, but Readings were flat on the adoption of the Olcott scheme. French exchange on London is tending downward again. A city of Paris loan is anticipated in January. If it comes a considerable amount of gold will go there from New York or London."

Money on call easy at 1½@2 per cent., last loan 2, closed at 2 per cent. Prime mercantile paper 2¾@4½. Sterling exchange quiet but firm with actual business in bankers' bills 4.88½@4.88¾ for demand and 4.87½@4.87¾ for 60 days. Posted rates 4.88@4.89 and 4.90. Commercial bills 4.86¼@4.86½. Silver certificates 59¾ bid. Clearings $73,758,430; balances $6,135,851.

Railway Bonds.

There was a moderate increase in the volume of trading, to-day, with the main trend of values toward lower figures. The feature of the dealings was the pronounced weakness in the Reading issues. The transactions in these securities reached the large total of $573,000. The total transactions for the day were $1,278,500, as follows:

ON THE CHICAGO BOARD

THE GRAIN MARKETS WERE HEAVY AND WEAK.

EASY CABLES AND HOLIDAY DULLNESS THE INFLUENCES.

Wheat Opened Lower and Closed at a Decline, There Being More Sellers Than Buyers—Corn Was Active but Weak and Lower—Provisions Take a Big Jump and Pork Lands 25 Cents Higher.

Chicago, Ill., Dec. 28.—The grain markets were heavy, to-day, and inclined to weakness under easy cables and influenced by holiday dullness. The provision market wore something of a gladsome look for the bulls, and made advances of 25c in pork and 10c each in lard and ribs. Wheat, corn and oats each closed in the doleful dumps at respective declines of from 1 to 1⅛c a bushel.

After a struggle or thirty minutes in the wheat pit this morning, another ½c per bushel was rubbed off the price of that article. The Early cablegrams quoted Liverpool a shade lower and steady at the decline. The addition made to the crop of the country yesterday was not in evidence in to-day's receipts. Chicago got forty-four cars, or rather twenty-two cars, for twenty-two of those inspected were transfers from private to public warehouses. The receipts here a year ago were seventy-four cars. Minneapolis reported 147 cars and Duluth seventy or 217 in all, compared with 271 on Friday a week ago and 361 a year ago. The primary market receipts in this country were only 241,000 bushels against 329,000 bushels on the corresponding day of last week and 416,000 bushels a year ago. Export clearances of wheat and flour from the Atlantic ports amounted to 320,000 bushels. The closing cables were in line with those received at the opening. Liverpool was from ¼d to ½d lower. Paris quoted 20 centimes decline in December flour, but no change in distant deliveries, and quoted wheat 10 centimes lower all around. May wheat, which opened at 57½c, first advanced a trifle to 57⅝@57¾c, and followed that up by a decline to 57⅛c. It afterward bobbed up and down between 57⅛c and 57⅜@57½. The latest trading was at 57⅜c, at which there were, however, more sellers than buyers.

Corn was moderately active, but weak. The demand was again very limited for May corn, but for No. 3 and No. 3 yellow to go in store there was a rather better inquiry. The range of fluctuations in May was narrow. The opening price was 48¼c, showing no changes in previous afternoon. It was fairly steady and even firm for a short time, but weakened when wheat began to decline. It sold sparingly as high as 48⅜c, and declined to 48c, at which price, however, not much could be bought. The latest trading was at 48⅛@48¼c.

The oats market was purely a sympathetic one. Prices were considerably lower, but only a fairly active session was passed. May started where it ended yesterday at 31¾c, sold down to 31½c and closed at 31⅝c.

The provision market opened rather tame at a shade less than yesterday's closing prices, although the run of hogs was considerably smaller than had been looked for. The inclination to sell was soon checked when it was discovered that many of the recent sellers were disposed to take the other side of the market. May pork, which yesterday closed at 11.60, opened with sales at from that down to 11.57½ and the latest trading was at 11.85. May lard opened at 6.90 and closed at $7. May ribs started at 5.90 and closed at $6.
